

Comfort Zone at Spa Sula – a balance between pleasure and top results

HEALTH & LIFESTYLE

GERALDINE CARR

A luxury new five star cosmetic brand introduced to Spa Sula at the Westport Plaza Hotel includes an unmissable luxurious rejuvenating facial treatment for both men and women.

The Comfort Zone facial begins with a hand and foot relaxation rub and continues with applications of silken creams over the face and neck area which are therapeutically rubbed and massaged into the skin.

Massage is actually just as big a part of the Comfort Zone treatment as the luxury cream applications and clients need not be surprised to discover themselves nodding off mid-way. Expect to enjoy beautiful, soft, skin at the end of treatment in addition to tension release from head, neck, and shoulder areas.

Comfort Zone is a well established brand on the international professional spa market, present in more than 45 countries, and including international hotel group clients such as the Hilton and Ritz Carlton.

The multi-sensory journeys promised in the Comfort Zone treatment repertoire includes top quality products and rituals for sensational results and total satisfaction.

Spa Sula clients can avail of a complimentary hour in advance of treatment to enjoy in the

thermal suite, followed by a quiet lie-down afterwards in the relaxation suite.

Comfort Zone at Spa Sula also includes body treatments that include rituals and massages all geared towards achieving a constant balance between pleasure and results.

Book your Comfort Zone treatment now at Spa Sula, Westport Plaza Hotel on 098 550999.
